Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. . . . It is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Hobart A. Hare, M. D., of Medical Department, University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D. and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a *professional* endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Fourth of July Horrors.

Wanamie, a mining town five miles from Wilkes-Barre, Pa., was thrown into a fever of excitement yesterday evening when a loud report was heard similar to that of a mine explosion. Men, women and children ran to the scene and soon discovered that five boys had been killed and nine others injured by celebrating the Fourth of July. Two of the killed were brothers, named Pachunis, two others brothers named Shukawicz and the fifth named Long. They had placed powder in a pipe and it failed to go off. They then forced a stick of dynamite into the pipe and began pounding it. A terrific explosion followed. Four of the boys were badly mangled and the fifth died on the way to the hospital. Some of the injured are so badly hurt that they may die.

Little, the 11-year-old son of C. B. Green, formerly of Montgomery county, Md., who moved to Cumberland several years ago, had his side torn out by the explosion of a giant firecracker yesterday. A man had thrown the firecracker. It did not explode and the lad went after it, thinking the fire had gone out. It exploded after he picked it up. He is horribly burned and mutilated. Other accidents in Cumberland yesterday were as follows: William, aged 15, son of George Wagner, and a companion, a son of Mrs. Mary Rohrback, were burned by the explosion of a can of giant powder into which another boy unwittingly threw a match. Doctors think the Wagner boy will be totally blind from his burns. Frederick, son of Stanley Butler, of Cumberland, received an ugly cut across his forehead from a torpedo cane with an iron exploding apparatus on the end. The cane was swung by a young son of William List. A large quantity of dynamite was exploded on the bill adjoining Cumberland on the south early yesterday morning. The entire city was shaken by the concussion and nearly every sleeper was aroused. No damage was done.

While celebrating the Fourth in front of his home, in Norfolk, last night, William A. Young, formerly a representative in Congress from the Second district of Virginia, was severely injured by the premature explosion of a giant cracker.

A large number of persons were injured in Washington yesterday by the explosion of fire crackers, &c., but no one was fatally hurt.

The Deutschland Wins.

The second eastward trans-Atlantic race between the Hamburg-American line steamer Deutschland and the French liner La Provence ended yesterday morning with a decisive victory in favor of the German boat.

The Deutschland was reported 140 miles southwest of Browhead at 5 o'clock Tuesday afternoon, and was reported passing Eddystone Lighthouse, at the entrance to Plymouth harbor at 6:39 a. m. yesterday. Her time of passage from New York to Plymouth is 5 days 14 hours and 9 minutes, at an average speed of 23:01 miles an hour. The distance covered was 3,093 miles.

La Provence was reported by wireless telegraph when the vessel was 150 miles south of Browhead at 10 minutes past 5 o'clock yesterday morning.

The Deutschland, for Plymouth, Cherbourg and Hamburg, cleared Sandy Hook bar at 11 a. m., Thursday, June 28, and La Provence, for Havre, followed 1 hour and 14 minutes later. Allowing for this difference in time, the Deutschland beats La Provence nearly 11 hours, against the 4 hours claimed by the French steamer on the previous race.

On the last trip to the west La Provence beat the Deutschland by four hours. The German line's officials at that time declared that La Provence had taken a short route, instead of the usual summer steamship lane, but this was denied by the French line.

The Deutschland passed Sandy Hook lightship last Thursday shortly before noon, one hour ahead of La Provence. They were not heard from again until Tuesday when the Red Star liner Kroonland, on her arrival in New York, reported that on Friday Captain Kempff, of the German vessel, reported by wireless that he was leading La Provence by 50 miles.

After the Ice Trust.

That he would make an earnest effort to have the case against the alleged ice trust tried in the Criminal Court early in August was the declaration of District Attorney Bell of Philadelphia on Tuesday.

American Ice securities yesterday fell to 55½, compared with 60½ at Monday's closing, owing to the action of the Board of Aldermen in adopting the resolution calling upon the District Attorney to begin criminal proceedings against the officers of the company for alleged conspiracy to advance the price of ice.

BOYS who can PLAY the GAME
WE WANT boys who can "play the game," boys who when they play ball hit it hard and get to "first," the boys who want to succeed and are bound to succeed. We need them and we help them. We pay them good money. They can buy cameras, bicycles, horses—one boy has even bought a house and lot. It's "easy money" SELLING
THE SATURDAY EVENING POST
And there's more in it than the money, for we teach boys methods of success—we teach them how to work out their problems, teach them salesmanship, which is one of the best paid abilities in the business world. It's worth something to a boy to be connected with a large, successful house.
¶ And we take good care of our boys. There are extra cash prizes, camping trips, and other special offers. A boy can start without its costing him a cent, for we furnish his first supply of magazines free, and the money from these will buy another supply, and so on.
We want to send free an interesting booklet about our boys. Get into the game NOW by writing for it.

President Wesley M. Oler, of the American Ice Company, denies that an ice trust exists, and says he will welcome an investigation by District Attorney Jerome.

The municipal officials in Washington have initiated steps with a view to the prosecution of the responsible individuals if, upon investigation, it develops that the present ice famine in Washington is the result of a conspiracy to raise the price of that commodity in restraint of trade.

AND VIRGINIA ADVERTISER

THURSDAY EVENING, JULY 5, 1906.

IN HIS statement given out upon the adjournment of Congress Mr. Livingston hit the nail on the head when he said the republicians are keeping up the national expenses in order to head off any movement for reducing the tariff duties on which the trusts live and thrive. The tariff breeds the trusts, and the revenues must be spent in some way. But this policy may recoil upon itself. The party has extended the public expenditures till it is getting to be an interesting question where the money will come from. The New York Sun says that a continuance of the present policy of centralization will so increase the expenses of the government as to demand a larger customs revenue. But to increase duties would stop importations and make the revenue less. To reduce the duties would increase importations and the revenue, but then what would become of the sacred principle of protection and the inordinate profits of the trusts?

THE Civil Service Commission is seeking men of practical experience, and not book bred men, to fill the order of the Department of Agriculture for meat inspectors. The commission makes this point evident in its notice concerning the examinations which will be held in all of the large cities of the country, 198 in number, on July 21. Four hundred inspectors are needed and they will begin work at an annual salary of $1,000 each. Applicants will stand a poor show who have had not less than one year's experience in slaughtering, curing, packing or canning meats. They are wanted who, by reason of their work in cutting rooms, canning rooms, dry salt and sweet pickle cellars, sausage, lard oleo and beef extract departments, are competent to inspect meats and meat products as to their soundness, healthfulness and fitness for human food.

WILLIAM HOGE, president of the Commercial Travelers' Anti-Trust League, has sent a letter to President Roosevelt inviting him to preside at the reception to be tendered William J. Bryan in New York upon his arrival from Europe early in September. Mr. Hoge explained in his letter that the Commercial Travelers' Anti-Trust League is not a democratic organization nor a partisan organization in any sense, and that the organization regards Mr. Roosevelt as being as much opposed to the trusts as is Mr. Bryan. Notwithstanding all of which it is safe to bet that the President will not attend the Bryan reception.

THE Norfolk police have declared war on the cocaine industry, which is playing havoc with the negro population of this city. Policemen made a raid on the house 378 Princess Anne avenue early Monday morning, arresting two men and one woman charged with running a cocaine and morphine joint. Enough drugs to kill many people were seized by the police for evidence. A similar condition of affairs exists in many of the cities throughout the country and the police cannot be too energetic in their efforts to brake up the pernicious traffic.

EDWARD PAGE GASTON, of Chicago, testified Tuesday before the select committee of the British House of Lords on juvenile smoking that the worst article America sent to Great Britain was the American cigarette. "It is worse," he said, "than Chicago tinned meat." Unless the American trusts make a radical change in their methods and ship better products abroad the trade of the United States with foreign countries will soon be reduced to the minimum.

SO IS seems that the failure of Congress to pass the bill prohibiting corporation contributions to politics was due to the fear, in which the President participated, that without a large fund the republicans would be unable to elect a majority of the members of the House this fall. This is interesting evidence of the high moral standards that are maintained at both ends of Pennsylvania avenue.

[Correspondence of the Alexandria Gazette.]

Washington, July 5.

Secretary Taft received this morning representatives of the power companies which depend upon the Niagara river water supply, who under the recent act of Congress must receive permits from the War Department in order to share in the 15,600 cubic feet of water which may be diverted from the falls for industrial purposes. Very little was accomplished at the initial hearing beyond the appearances of the companies and Secretary Taft's instruction that within ten days formal applications for permits shall be filed by the parties in interest, setting forth their claims for consideration, the amounts of water they desire and the information they have bearing upon the subject. Each applicant is also instructed to serve upon the other applicants copies of the application. Secretary Taft announced that the next hearing will be held on Friday, July 13.

The Secretary of the Navy today formally accepted the resignation of Capt. R. F. Wynne, U. S. Marine Corps. His first resignation was sent by telegram, but on the ground that it was not official, but was not accepted. A few days later Capt. Wynne's resignation was forwarded by mail and it was this that was accepted today. Capt. Wynne was tried by court martial at the New York navy yard on charges of insubordination. He was found guilty and recommended for dismissal, but the President, upon the recommendation of the Secretary of the Navy, permitted him to resign.

A dispatch to the War Department from Manila reports that cholera is very virulent in that city. There were 116 cases and 99 deaths in the week ended July 4th. For the 24 hours ended at 8 a. m. July 5th, there were 12 cases and 5 deaths in the provinces. For the same period in Manila there were 29 cases and 23 deaths. The Bureau of Insular Affairs believes that the great majority of the cases is among the natives and Chinese. So far no deaths from cholera have been reported among Americans in the government service.

The woman had been an inmate of the Williamsburg Asylum and the man said she had extracted from him a promise to kill her if she showed signs of insanity again, she preferring death to reincarceration in the asylum.

Tammany Celebration.

The annual celebration of the Society of Tammany, or the Columbian Order, took place yesterday in honor of the one hundred and thirtieth anniversary of American independence. The exercises, which were held at Tammany Hall were attended by prominent men from many parts of the country.

One of the principal addresses of the day was delivered by Congressman John A. Sullivan, of Massachusetts, who spoke of what he regarded as the evils which had grown out of the protective tariff. He said: Foreigners offered to build the dredges for the Panama canalten per cent. cheaper than the Maryland Steel Company.

Mr. Burke Cockran in his speech intimated that the corporations are now naming the judiciary.

Congressman Robert L. Henry, of Texas, who delivered one of the "long talks" of the celebration, nominated William J. Bryan and Congressman Charles A. Towne, of New York, as president and vice prediaet, respectively, on the next democratic ticket. The audience yelled approval, applauding with hands, feet and voices.

Among those who made short addresses were Congressman Jack Beall, of Texas. Mr. Beall said that "the republican party is the greatest criminal that ever stood before the bar of justice to have the sentence of death passed upon it."

Fatal Leap.

New York, July 5.—Leaping off the Williamsburg bridge early today and landing on Delancy street, a young man, supposed to be Julius Weiner, of Bayonne, N. J., was instantly killed. The bridge at that point is about ninety-feet high. Policeman Fallon saw the man's terrible plunge. A letter was found in his pocket addressed to Julius Weiner. The latter said the victim was probably his nephew who had visited him yesterday and left for home in good spirits.

HungarianArrested.

Altoona, Pa., July 5. — Cambria country authorities have arrested two Hungarian brothers, for causing the Portage tragedy Tuesday night in which thirteen non-union miners lost their lives by a runaway car jumping the track at Martin's Curve, and landing on them. The brothers were formerly employed at the Puritan coal company's mines, but went on strike. It is said they released the brakes on the car and started it.

Suicide on a Steamship.

New York, July 5.—Captain Hayes of the White Star line steamer Majestic, which arrived this morning from Liverpool and Queenstown, reported that on July 2, F. N. Woodruff, a saloon passenger, aged 36 years, committed suicide by cutting his throat with a razor. The body was buried at sea. Mr. Woodruff was a travelling agent for Marshall Field & Co., of Chicago.

Four Men Drowned.

Machias, Me., July 5.—The three masted Rockport schooner Ella G. Eels, from New Bedford, bound to Windsor, N. S., went ashore last night in a thick fog, on Libby Island, and became a total wreck. Four of the crew of five were drowned. Captain W. A. Breen was rescued from the wreckage by the keeper of Libbey Island.

Missing Man.

Ottawa, Ont., July 5.—Detective Joseph Gallagher, of Erie, Pa., is in Ontario looking for Michael Liebel, a wealthy citizen of Erie, who disappeared from there on May 25. A man who knew Liebel wrote to his friend stating he had been seen in the King Edward Hotel, Toronto, on May 20. A reward of $5,000 is offered by the family for information concerning his whereabouts. Liebel had been suffering recently with a nervous trouble.

The Stanford White Murder.

New York, July 5.—Within the next few days the District Attorney's office expects to come into the possession of the affidavit made by Evelyn Nesbit, in the contemplated action against Harry Thaw, which the young Pittsburg millionare, is said to have believed was instigated by Stanford White. This important instrument which was drawn up by a lawyer, and kept safely hidden in a safe deposit box, would be of invaluable aid to the prosecution in the support of its theory that hatred and revenge caused Harry Thaw to shoot and kill the Architect. Stanford White is said to have had much to do with the drawing of this instrument. It is said that Miss Nesbit told White many things that prompted him to suggest a suit against Thaw. Mr. White took the artist model to a lawyer where she made a long affidavit. Because of the nature of the contents White insisted that the document be kept in a safe deposit box. The suit never went as far as the complaint stage, for when Thaw was shown the affidavit, he made a settlement with Miss Nesbit and also gave her lawyer a large allowance. Later, Miss Nesbit and Thaw were married. It was after the marriage that Thaw learned for the first time that White had much to do with the suit that Miss Nesbit contemplated against him.

Mrs. Thaw denies that she had previous to her marriage had an affidavit drawn in a contemplated suit against Thaw.

Rojestvensky Takes all Blame.

In a manly effort to save the surviving members of his staff and the other officers who, he believed, surrendered the gunboat Bedovi in the battle of the Sea of Japan on account of their affection for their wounded commander and their desire to save his life, Admiral Rojestvensky yesterday pleaded guilty before a court-martial at Cronstadt.

In a short speech to the court the admiral declared that he took all the blame on his own shoulders, and asked that he alone be punished to the fullest extent of the law, virtually an appeal for condemnation and death, which is the penalty for hauling down the St. Andrews cross to a hostile vessel.

MR. BRYAN.

Mr. William J. Bryan arrived in London, Tuesday and yesterday was the orator at the Fourth of July celebration of the American residents of the English capital. He has given out a statement concerning the presidential nomination.

Ms. Bryan says the New York reception "must not be regarded in the light of an indorsement for the presidential nomination."

"I appreciate the compliment paid by the various state conventions.

"I do not regard their expressions as binding upon them or their party

"I shall not prosecute them for breach of promise if they transfer their affections to another,

"Hearst, Bailey and Folk have all rendered conspicuous service and their claims should be considered.

"The list should be an open one until the time comes to choose.

"It is two years before the convention meets, and I am not willing to sit on a stool and look pretty that long."

William J. Bryan was the central figure at the independence day dinner of the American Society at the Hotel Cecil, London, last night. Nearly 500 members and guests surrounded the society's board and cheered patriotic sentiments with the peculiar zest born of exile. Ambassador Whitelaw Reid and Mr. Bryan engaged in some sharp but good-humored raillery and banter over political differences, the crowd evincing its enjoyment of the sport with cheers and shouts of laughter.

Mr. Reid in responding to Sir W. H. Richmond's graceful proposal of his health, said with reference to Mr. Bryan: "At home, as a citizen, I have openly and squarely opposed him at every stage of his conspicuous career. I am reasonably sure that when I return home I shall continue to do the same. I believe he tonight is as well satisfied as I am, though by different reasoning, that the country we both love and try to serve has not been ruined by its gold. Abroad, as the official representative of the American people without distinction as to party, I am glad to welcome him here as a typical American whose whole life has been lived in the daylight and one whom such a great host of my countrymen have long trusted and honored."

Mr. Bryan, rising amid laughter and cheers, said:

"The temptation to make a political speech is strong within me. I have not had a chance to do so for ten months. However, I will restrain myself. With reference to the Ambassador's remarks, on gold, I wish to say that when I see the progress my country has made walking on one leg, I wonder what it would have done walking on two legs. It is pleasing to testify that the Ambassador not only has fought me, but that he has done it well. No American rejoices more than I that he is 3,000 miles from his base. While abroad I have met many good republicans— holding office—and I only wish there were enough offices abroad to take all the republicans out of the country."

Mr. Bryan then proceeded to read from manuscript a speech upon the "White Man's Burden."

The following were some of the striking phases of his speech:

"That no one liveth unto himself or dieth unto himself has a national as well as an individual application. The improvement of the people themselves should be the paramount object of all intercouse with the Orient. If the designes of God are disclosed by His handiwork, then the creation of the human mind is indubitable proof that the Almighty never intended that learning should be monopolized by a few. Equally false is that conception of international politics which would make the prosperity of one nation depend upon the exploitation of another. The English language has become the vehicle for the conveyance of governmental truth. Whether one travels abroad or studies at home, there is no language so useful at the present time as that which we employ at this banquet board, and the nation which is instrumental in spreading this language confers an inestimable boon. The belief that moral questions can be settled by the shedding of human blood is a relic of barbarism. When men and women become ashamed of doing nothing and strive to give society full compensation all they receive from society there will be harmony between the classes."

The President's Speech.

Standing bareheaded in a driving rain, and with a rubber cloak grasped tightly about his shoulders, President Roosevelt at Oyster Bay yesterday morning gave what he termed an account of his stewardship to about 1,000 neighbors and fellow townsmen in a meadow back of the village. Among other things he said

"Distrust as a demagogue the man who talks only of the wrong done by the men of wealth. Distrust as a demagogue the man who measures iniquity by the purse. Measure iniquity by the heart, whether a man's purse be full or empty, partly full or partly empty.

"There is plenty of iniquity in business, in politics, in our social life. There is every warrant for our acknowledgment of these great evils. But there is no warrant for growing hysterical about them.

"Very many wrongdoers, especially when the wrongdoing is permitted by a whole class, are wrongdoers only through force of circumstances. Try to remove the cause of their wrongdoing but do not cultivate toward them a spirit of rancous hatred, which in the end will react most surely upon ourselves.

"You cannot protect property without finding that there are some people warring beside you whose motives you would repudiate. But in each case be sure that you keep your own motives and your own conduct straight."

More Mutinies.

Odessa, July 5.—The Cossacks at Taganrog have mutinied and refuse to obey the commands of their officers to suppress the agrarian disorders in that district. The Cossacks, further more, have joined the peasants in pillaging the estates of local noblemen.

London, July 5.— Despatches from Tokio state that the steamship Colonia, which arrived at Nagasaki today, from Vladivostok, reports that riot and mutiny are in progress in the Russian naval stronghold. The Colonia brought a number of refugees who fled from the city for fear the town would be destroyed.

The trouble started on Saturday, according to the officers of the Colonia, when a mob seized eight cases of dynamite belonging to the government. A regiment attacked the mob and captured thirty of the ringleaders. The mob gathered again on Sunday and demanded the release of the thirty men arrested the day before.

When this demand was refused, the rioters announced their intention of taking the prisoners by force. There was bloody fighting in the streets, the Cossacks arrayed against the mob which was reinforced by many disaffected soldiers Just before the Colonia sailed on Sunday the mob had captured a battery of artillery, and was preparing to turn the guns on the soldiers.

Stabbed by an Italian.

Oyster Bay, N. Y., July 5.—A thrill of excitement was furnished the villagers late last night by the stabbing of a colored sailor belonging to the President's yacht, the Sylph, by an Italian. The negroes of the town were giving a dance in honor of the Fourth at Fleet's hall, right opposite the executive office. A crowd of the young colored men were congregated at the entrance shooting off fireworks and blank cartridges. Five or six Italian laborers happened to pass by the corner and the colored celebrators thought it would be great fun to throw bunches of crackers at the feet of the Italians. They put the idea into execution and for a few minutes were convulsed with glee to "see the dagos dance." In the very middle of the dance, executed by the sons of Italy, one of the latter leaped into the crowd of colored men, plunged a knife into the side of the dusky tar, and ran away in the darkness leaving the weapon in the wound. Doctors Barnes and Hall of the village, treated the wounded man and found that the Italian's knife had entered the sailor's body six inches below the heart. After his wound was dressed, the injured man was taken aboard the Sylph where he is said to be in a critical condition.

Train Wrecked.

Cleveland, O., July 5.—Spreading rails wrecked train No. 21, a fast mail, on the Lake Shore Railroad near the Glenville station at 7 o'clock this morning, while it was speeding sixty miles an hour. James Sullivan, 25, address unknown, who was stealing a ride, was fatally hurt. The engine left the track first. The coupling of the coaches and the baggage car parted and the engine drawing the baggage car bumped along the ties for a quarter of a mile. It struck a frog and was diverted to another track. Engineer Cooney Meyers and Fireman Springer remained at their posts. All the coaches, including two mail cars and five passenger cars, left the tracks, but none was overturned. The passengers were, however, tossed and thrown about. Many of them were in a panic. They threw their baggage through windows and as soon as the cars came to a stop, they followed. Officials on the scene shortly after the accident could not explain the spreading of the rails. There was no switch where the train left the rails.

Killed by Electric Car.

Binghamton, N. Y., July 5.—Mr. and Mrs. Jasper Pepper, of Willow Point, each aged about sixty, and the horse they were driving were instantly killed last night in a collision with a street car near the Casino at Union. Mr. and Mrs. Pepper had just started for their home, after spending the day at Union. They were running their horse along the highway when a heavy vestibuled car approaching from the opposite direction appeared in sight. Instead of heeding the warning of the motorman of the car and keeping in the road Pepper swung his horse into the car tracks just ahead of the car, too late to allow the motorman to slacken his speed. Mr. and Mrs. Pepper were thrown under the wheels.

The Longworths.

London July 5.—Representative and Mrs. Nicholas Longworth, who are making a tour of Europe, left London this morning for Paris. The Filipinos in London endeavored to arrange a banquet in honor of Mrs. Longworth, who was Miss Alice Roosevelt, as indication of their acceptance of American sovereignty over the Philippine Islands. The banquet, a public affair, was to have been given under the patronage of Senors Yanko and Roxas, two of the richest Filipinos now in Europe. Owing to the short sojourn of the Longworths in London, the arrangements for the banquet have fallen through.

Death Roll of the Fourth.

New York July 5. Telegraphic reports from all over the country at an early hour today show a death roll of thirty-eight as a result of the celebration of the Glorious Fourth. Many of the large cities have not been heard from. When the returns are all in last year's record of forty-six deaths and 2,505 serious injuries will probably be equalled. New York's Fourth of July casualty list is as follows: Killed by stray bullets, 1; fatally injured, 2; injured by stray bullets, 22; injured by blank cartridges, 49; injured treated at hospitals, 300; fires 41; arrested for using revolvers, 401.

Collapse of a Platform.

Council Bluffs, Iowa, July 5.—By the collapse of a platform at the landing at LakeManowa, Wednesday evening, nearly 150 persons were thrown into sixteen feet of water. Miss Lena Rosenbloom, of Omaha, fell under the platform and was unconscious when taken out of the water. She died without recovering consciousness. Miss Chamberlain, also of Omaha, received severe injuries. Most of the persons who were dropped into the water were able to rescue themselves in a short time, while others were aided by persons near at hand.

Suicide of Real Estate Dealer.

Chicago, July 5.—Frank D. Callan, 45, head of one of the largest real estate firms in the city, committed suicide this morning, to escape, it is alleged, prosecution on a dozen criminal charges, several of which were on the call of a magistrate's court four hours later. He shot himself through the heart. Callan leaves three young children. He was arrested prior to May 1, on a warrant charging him with larceny by embezzlement in appropriating to his own use money entrusted to him for investment. His victims, whose aggregate losses are said to be about $100,000, are mostly women wage-earners and dress makers who gave their life savings into the keeping of the real estate dealer. Callan was actively engaged in business up to recently, when financial straits compelled him to give up his offices. The principal witnesses against him were a Miss Burke, who claims to have lost $7,400, and Miss Nellie E. Alpine, whose claim is for $650. Attorneys for the estate say Callan had enough real estate to discharge all obligations in full, but could not realize on it.

Mrs. Hartje Testifies.

Pittsburg, July 5.—Hartje, it is alleged, offered Coachman "Tom" Madine $2,500 to drive away a man whom, it is said, he is jealous of.

Madine reiterated that Hartje offered him $5,000 to testify that he saw Mrs. Hartje and Gross MacConnell in the house together when no one else was there.

Mrs. Hartje and Madine emphatically declare they were not the writers nor the recipients of the sensational letters produced in court.

Madine disclosed the name of the person he called "Mary" over the telephone, and it was not Mrs. Hartje.

Both Madine and Mrs. Hartje deny any friendliness, except that which was natural between a kindly disposed mistress and a well-behaved servant.

This was the substance of the testimony taken Tuesday in the Hartje divorce suit in Pittsburg.

Lee to be Hanged.

Baltimore, July 5.—Wm. Lee, alias George Scott, a 17 year old negro, was convicted in the criminal court here today of criminally assaulting Mrs. Lyly Barnes and Miss Frances Powell, in Somerset, Maryland, on June 11. Judge Harlan who with Judges Dobler and Wright, tried the case, without a jury, sentenced Lee to be hanged. He will be kept in jail here until the day of his execution to be appointed by Gov. Warfield, when he will be removed to Somerset county for execution. Residents of that county assert that the negro will be lynched and his body riddled with bullets, deseite the militia, which will probably be sent there to guard him.

The Hartje Divorce Case.

Pittsburg, Pa., July 5.—Sensation followed sensation in rapid succession this morning during the Hartje divorce trial in which Augustus Hartje, the millionaire, is attempting to prove that his wife, Mrs. Mary Scott Hartje, has been intimate with their coachman, Thomas Madine. Witnesses who were former servants of the Hartjes and testified that they had never seen Mrs. Hartje do anything unbecoming or unladylike. One servant girl, however, admitted that Mrs. Hartje often went to the stable when Madine was there and that she stayed there often for fifteen minutes or longer.

Accidentally Killed.

Washington, N. J., July 5—Jacob O. Boyer, assessor and prominent democratic politician of Pohatong township Warren county, went to the field on his farm late yesterday afternoon to shoot a dog which was killing sheep. He discharged one load from a double barreled gun, but only wounded the dog, which jumped at him. He then undertook to strike the dog with the gun and in doing so the other barrel was discharged, the load going into Boyer's groin. Boyer was dead when his wife found him a few minutes later. He was 45 years old and a prominent lodge man.

Inspecting Canned Goods.

Geneva, Switzerland, July 5.—The examination of canned provisions imported from the United States, which was ordered to be conducted by the government on the Swiss frontier, has been completed at Basle and Lausanne. According to the official report of the Swiss inspectors, they examined hundreds of tins and and of provisions and without exception all were good, although many of the tins were old. As the result of the inquiry, the government has placed large orders with the Chicago packing houses for tins of goods for the use of the army.

The Belgians Win.

Henley On Thames, Eng., July 5.—The crew of Trinity Hall, Cambridge was defeated today by the crew representing the Club Nautique de Grand of Belgium in the race for the grand challenge cup. The Belgians won by three lengths from the English crew and finished in the time of 7:09 As a result of the race the grand challenge cup leaves England for the first time in its history and during the next year will adorn the headquarters of the Belgian Rowing Club.

Havre, France, July 5.—The French liner La Provence, which sailed from New York last Thursday in a race across the Atlantic, with the Hamburg flier Deutsahland, was towed into the harbor this morning with a broken piston. The accident happened last night, when the vessel was nearing the end of her voyage. It is expected that La Provence will be able to sail on Saturday notwithstanding her mishap.

D., Assessor of Stanley County, relates the following: "I was waylaid by a complication of throat and lung troubles, bronchitis, asthma and a terrible cough, which had affected me for years, when I was persuaded to try Dr. King's New Discovery. Steamers Sidewipe.

There was considerable excitement about one o'clock yesterday afternoon between several thousand excursionists on the steamers Jamestown and St. Johns about three miles north of Maryland Point, 37 miles from Alexandria. The boats had left this port between 9 and 10 o'clock crowded with pleasure-seekers. The St. Johns was in the lead, but the Jamestown kept contracting the distance between them and when nearing Fort Washington, where the channel is narrow, the Jameston sounded two blasts from her whistle, indicating that she would pass on the port side. The St. Johns had been crowded apparently too near the channel bank on the Virginia side to get out of the way of the Jamestown, and the two steamers kept on abreast of each other, at times almost close enough to have tossed a biscuit from one boat to the other. The race caused great exhilaration among the excursionists. Occasionally the St. Johns would forge ahead a few yards when the Jamestown would quickly regain her lost ground. The two boats kept abeam of each other for about an hour and a half, neither seeming to gain any material advantage. While this was going on an old and experienced steamboat captain of this city, who was a passenger on the Jamestown, became apprehensive, and approaching an officer of the steamer suggested that should the boats continue on so close together an accident would be inevitable. The officer said in reply that the Jamestown would soon pass her rival. When about three miles this side of Maryland Point, where the channel is a mile and a half wide, the two steamers were well over on the Maryland side. The Jamestown was about 50 yards from the buoy, and the steamers running neck to neck, when the suction drew them together. At this juncture the greatest excitement prevailed on both steamers, and the officers experienced considerable difficulty in calming the excursionists, by assuring them that there was no danger, although many on both boats donned life preservers. The boats soon separated and continued on, but widened the distance between them. Some of the woodwork on the St. Johns was damaged and the paint was scratched from the starboard paddlebox of the Jamestown. The latter returned to this city about 6 in the evening and the St. Johns between 10 and 11 o'clock last night.

Refused Release from Asylum.

The second efforts of Mrs. Caroline F. Corbett and her daughter, Cornelia L. Corbett, to gain their release from St. Elizabeth's Insane Asylum by means of habeas corpus proceedings proved of no avail Tuesday. The petition was refused by Justice Wright after a hearing in the District of Columbia Supreme Court. The woman claimed to have been committed to the asylum in June, 1904, without legal authority, having been tried before a marshal's jury, over which no judge presided. On the same grounds a writ of habeas corpus was asked in December last, resulting in the petition being dismissed by Justice Barnard. Mrs. Corbett, according to the petition, has property rights in the residence in Seton street, Washington, from which she was taken to the asylum, valued at $2,000, and also has an interest in an estate left byher husband, the late F. E. Corbet of this city, which she worth $75,000, and is now in course of administration

Death of Mr. Sherwood.

Mr. J. T. Sherwood, a well known old resident of the Second ward, died at his home at the corner of Queen and St. Asaph streets Tuesday night. Mr. Sherwood was 80 years of age, and during his life had engaged in many occupations but the last years he had been engaged in the insurance business. About forty years ago he was keeper of the Alms House. He later was engaged in the grocery business at the northeast corner of Queen and St. Asaph streets. The deceased had been a life-long and consistent member of Trinity M. E. Church, and was respected by all who knew him. The funeral took place this afternoon. The services were conducted by Rev. Mr. Jeffers and the pallbearers were Messrs. O. F. Baggett, J. F. Dyson, J. T. Boyd and Peter Astryke.

Missing Man Found.

A steam launch belonging to parties from this city left Marshall Hall last night with eight persons aboard. Sometime after the launch started it was discovered that one of the party was missing. No one saw him fall or jump from the boat, and the greatest anxiety for his safety was shown. The launch was turned around and headed down the river. After proceeding a short distance the object of the party's search was found on the Maryland flats. It seems that the man while leaning against a stanchon had accidentally fallen from the launch while it was near the channel bank and had managed to reach the flats. He was taken into the launch after which the party resumed their way homeward.

Mr. Fendall's Trip Abroad.

City Engineer Fendall, of Baltimore, will start on his trip to Europe next Saturday, sailing on the Kroonland, for Dover, England. He will leave Baltimore for New York on Friday. Mr. Fendall will remain abroad until the fall, studying the paving question. He will begin with the city of London. Among other cities he will visit are Amsterdam, Hamburg, Berlin, Vienna, Budapesht, Munich, Paris, Manchester, Birmingham and Liverpool. At Budapesht he will inspect the municipal paving plant. A plant will be recommended for Baltimore in his report to the Board of Estimates in the fall. Mr. Fendall's many friends in this city, his old home, wish him bon voyage and a safe return.

Mr. C. O. Tulman reported at police headquarters today that a colored man came to his store, put three pairs of shoes in a basket and tried to make off. A young lady clerk attempted to seize the man when he dropped the basket and made his escape.

The Fourth of July.

The Fourth of July was duly observed yesterday. Business was generally suspended and a large percentage of the community went on public and private excursions. The weather in the morning was threatening, but fair conditions prevailed in the afternoon with a stiff northwesterly breeze. The temperature was mild and continued so during the night. Chief Goods of the police force had notified the community that the ordinances against the used of firearms and other dangerous explosives were to be enforced. Notwithstanding this notification, however, many indulged in the dangerous pastime of exploding large-size crackers, &c. Officer Bell confiscated a small pistol, with which a small colored boy was celebrating, and shot himself in the hand with it. This was, it is believed, the only instance where any one defying the law was interfered with. The order of the Chief of Police was more respected in the southeastern section of the city than in any other quarter. Heretofore an eighteen-hour fusilade has been kept up at the intersection of Wilkes and Fairfax streets on the Fourth of July, but no large crackers were sold in that neighborhood yesterday and both young and old showed a disposition to respect the law. In many other places, however, loud explosions throughout the day and part of the night were heard.

Luna Park Attractions.

Washington Luna Park has taken its place as one of the greatest successes in the history of the amusement world. More than 50 large picnics and outings have been held at Luna Park since the opening of the picnic season on June 12, and a large number in addition have been scheduled for the month of July, August and September, including many from points considerably distant from Washington. There are three big dates in July. On July 17, the Surrender of Santiago will be celebrated by the United Veterans of the Spanish-American War, and all the military organizations in the District of Columbia will take part in the ceremonies. It is proposed to have all of these organizations join in one national body and to have July 17 set aside as a national holiday. Two of the other big days will be "Alexandria Day" on July 23rd and "Washington Day" on July 30th. Mr. Frederick Ingersoll, designer, builder and director of Luna Park, and who is interested in 46 parks of the same character, is now having two airships built on improved lines and according to plans designed by Lincoln Beachey, whose recent flight over Washington set the entire scientific world agog. These ships are being built in Pittsburg and the first one finished will be brought to Washington at the earliest possible date for a second series of flights.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of yesterday:

Guy Wood, colored, arrested by Officer Knight charged with assaulting Richard Boyd, colored, was turned over to the county authorities.

George Finnell, arrested by Officer Gill charged with assaulting John Cowling, was fined $5.

Don P. Hurley, arrested by Officers Beach, Lyles and Garvey charged with gambling and selling liquor without a license, had his case continued until Friday.

Dan Bryant, colored, arrested by Officers Lyles and Garvey charged with assaulting Ollie Simpson with a brick, was fined $5.

The following cases were disposed of this morning:

Willis Pettit, arrested by Officers Jones and Garvey charged with beating his wife, was fined $20.

Howard Banks, colored, arrested by Officers Beach and Lyles charged with assaulting Llewellyn Beckley, was fined $10.

A colored man, arrested by Officers Bettis and Nicholson, charged, with assaulting his wife, was fined $10.

Bursting of a Reservoir.

The immense reservoir on the hill at Luna Park burst at 2 o'clock yesterday morning, and 280,000 gallons of water poured down the hillside past the Chateau Alphonse and into the grounds, cutting a great ravine through the soil from two to five feet deep and in some points three to four feet wide. Manager George E. Gill was notified of the catastrophe by a watchman who awoke him at his park residence. He at once arranged for the employment of a force of 200 men, who went from this city and the surrounding country, including the regular force to take up the work of repairing the damage the first thing after daylight. Before noon yesterday the park was again in its normal condition. The accident was caused by the recent heavy rains.

Baseball.

The Old Dominions and the Invincibles played ball before a large crowd on the old fair grounds yesterday morning. Neither side scored until the last inning, when the Invincibles managed to get one man over the plate. Glover and Everett composed the battery for the winners, and Pelton and Lyles for the Old Dominions. Glover struck out fifteen men and Pelton twelve.

The afternoon games between Arion Athletic Club, of Washington, and the Alexandria Athletic Club were one-sided, the visitors winning the first by a score of 11 to 3, and the second by a score of 12 to 4. Both games were very poorly played by the home team.

Arrest of D. P. Hurley.

Officer Jefferson Beach on Tuesday secured a warrant for the arrest of Don P. Hurley, charged with gambling, and with Policemen Lyles and Garvey arrested him Tuesday night. Hurley was also charged with selling liquor without a license. When called in the police court yesterday morning the case was continued until next Friday.

Union Excursion.

The Union Sunday Schools will give their seventeenth annual excursion to River View on Tuesday, July 10th. A pleasant time is assured all who attend. These excursions are always popular and are looked forward to with delight by the children of the various Sunday schools. There will be a special 8 o'clock trip from River View.

Mr. Harry F. West, president of the Penn Mutual Life Insurance Company, of Philadelphia, died Tuesday afternoon at the Gladstone Hotel, at Atlantic City. He had been ill a week. An affection of the heart was the cause of death. Mr. West was a relative of Mr. J. Wallace Hooff, of this city.

Killed by His Nephew.

M. S. Kidd, a foreman on the Southern Railway, was fatally shot in the right side under the lung by his 17-year-old nephew, Cornelius Kidd, at his home, 816 north Columbus street, about 4 o'clock yesterday afternoon. M. S. Kidd, who is about 50 years old, it is claimed, came out of his house and called his nephew, who was playing ball across the street, and accused him of taking his hat. The boy denied that he took the hat, whereupon Kidd cursed him. The man followed his nephew into the parlor, and, it is alleged, began choking him. The boy pulled out a pistol, which he had taken from a desk, and shot his uncle. Kidd was removed to the Alexandria Hospital where he died at 5 o'clock this morning.

Dr. Moore, the Coroner, held an inquest over the remains of Kidd at Demaine & Son's undertaking establishment today. The jury was composed of Messrs. Frank Evans, E. Warfield, jr., Robert Graham, L. Ruben, C. B. Swan and J. G. Cockey.

Mr. Graham was made foreman of the jury.

The autopsy was performed by Dr. Smith, assisted by Dr. Powell.

The witnesses examined at the morning session of the jury did not see the shooting and nothing definite was elicited. The jury then recessed till 2:30 o'clock this evening.

This evening Nora Kidd, who saw the shooting, testified that her uncle and the boy were quarreling and that the uncle "kept after" the boy who finally went to a desk got a pistol and shot his uncle.

After hearing the evidence the jury returned the following verdict:

We, the jury find that M. L. Kidd came to his death from the result of a gunshot wound from the hands of W. C. Kidd his nephew,

[Judge C. E. Nicol presiding.]

The plaintiff was represented by Messrs. W. R. Stephenson and J. M. Johnson and the defendant by Maj Holmes Conrad and Mr. R. E. Byrd. The hospital is suing to compel payment of the Ward fee of $2,000, which was donated to that institution by ex-City Solicitor R. M. Ward, who represented the city of Winchester in the numerous Handley estate suits. Arguments were concluded at 3:15 o'clock and Judge Nicol reserved his decision.

Will Abandon Alexandria

The Retail Merchants' Association of this city recently induced the Columbia Oil Company, of Washington, to enter the Alexandria field, and subsequently, as a result of the opposition, the Standard Oil Company reduced the price of its product a few cents. The Columbia Company, however, claims that it has not been properly dealt with, and asserts that it does not receive its share of the public patronage. The company therefore announces that it is making preparations to abandon the Alexandria field.

The Apartment House.

Those interested in the building of an apartment house in this city met Mr. H. J. Blau velt, the architect, yesterday and went over the plans of the proposed building with him. He said the building could be easily erected on the site selected by the committee—the property of Mr. M. B. Harlow, at the southeast corner of Alfred and Cameron streets—which site he considered a most desirable one. Another meeting will be held in a day or two when definite action will be taken.

DEFERRED ITEMS.

Dr. Wiley, of the Agricultural Department, has begun experiments to test the effect of cold storage on food products.

Col. Jesse J. Moore, superintendent of the Maryland House of Correction, died at Garfield Hospital, Washington, Tuesday night.

Two deaths—one by lightning and one by drowning in a sewer—were caused by the storm which swept over Baltimore in several sections Tuesday evening.

A raid was made on Tom Taggart's place at French Lick, Ind., Tuesday, and suit was begun to have his license revoked on the ground that gambling was allowed at the place.

Edward Page Gaston, of Chicago, in testifying before the British House of Lords on juvenile smoking, declared that the worst article the United States sent to England was the cigarette.

Asbury Spicer has confessed that he was offered money to kill "Jim" Cockerill and James Marcum, of Breathitt county, Ky., and implicated former Judge Hargis and former Sheriff Callahan.

Cholera of a virulent type has broken out among the natives of Manila and surrounding provinces. Four Americans in Manila have been stricked to date and one American (Charles Sheehan) has died.

The formal resignation of Capt Robert F. Wynne, of the Marine Corps, was received at the Navy Department yesterday. Capt. Wynne was recommended to be dismissed from the service, but was given the opportunity of tendering his resignation.

By a vote of 253 to 221 the French Chamber of Deputies Tuesday annulled the election of Count Boni de Castellane to the Chamber on the ground of corruption and bribery. Count Boni, who vigorously denied the accusation against him, made a counter charge of similar character against his opponent.

Mrs. Thaw arrived in London Tuesday where the news of the shooting of Stanford White by her son was broken to her. Mrs. Thaw may go to Switzerland on account of poor health before returning to America. It became known in New York Tuesday that detectives employed by Harry K. Thaw to shadow Stanford White many months before he was killed said they could find no justification for the stories circulated against him.

The historic Church of St. Michael at Hamburg, with its tower and spire 426 feet high, was destroyed by fire Tuesday. Four workmen were killed. The tower in falling crushed neighboring houses. It was yearly climbed by thousands of tourists for the splendid view it afforded of the river Elbe, the city and its surroundings. St. Michael's contained invaluable treasures, including trophies of the war of 1870. All these were lost. The structure was a restoration, begun in 1750, of an ancient church that was destroyed by lightning.

Steamer America Safe.

Information was received in New York yesterday that the Fabre Line steamship America, due to reach New York 14 days ago from Marseilles and Naples, arrived at Bermuda in tow of the Italian steamship Dinnamare. All of her 110 passengers and crew were in good health. The America was picked up on June 19 a short distance off the Azores in a disabled condition by the Dinnamare. She was flying signals of distress, her machinery being badly crippled, but from what cause the New York agents have not learned. It was also stated that the America was short of provisions and coal and would not have been able to reach port even had her machinery been in working order.

The America broke her shaft at noon June 16 in heavy weather, which moderated June 18. She drifted about to June 27, when she was sighted by the Dinnamare, which agreed to tow her to Bermuda. From that time on fine weather prevailed. The passengers and crew behaved well. The former, however, complain bitterly of the food and water, which they say was bad before the breakdown, but worse afterward. Several of the passengers went ashore at Hamilton yesterday and lodged complaints with the foreign consuls.
